

BIBEK SHRESTHA

IT enthusiast with foundational knowledge, eager to expand expertise. While my experience is currently limited, I'm dedicated to expanding my skills and knowledge. I possess a foundational understanding and am eager to leverage this knowledge to tackle new challenges and contribute effectively to projects. I'm excited about the opportunities ahead to grow and learn within the field of programming.

PROJECTS

Gamification in eLearning

This was my final year project and I also did my thesis on it. Gamification in eLearning revolutionizes traditional education by infusing game elements into learning experiences.

Ecommerce Website

As part of independent project work, developed a small-scale ecommerce platform utilizing Python programming language. Leveraged Python's versatility to create a user-friendly interface and ensure seamless backend functionality.
